Education

Southern University of Science and Technology (SUSTech) Aug. 2021 – July 2025 (Expected)
B.E. Computer Science and Engineering

GPA: 3.93/4.0

Ranking: 3/187

English Proficiency: TOEFL score 109 (Speaking 25)

Courseworks: Computational Ethics (ongoing), Operating System (ongoing), Natural Language Processing (ongoing), Artificial Intelligence (94), Object-Oriented Programming & Design (96), Computer System Design (97), C/C++ Programming (96), Computer Network (97), Computer Organization (97), Algorithms Design (95), Discrete Math (96), Linear Algebra (93) Probability & Statistics (87)

Experience

Summer Workshop, School of Computing, NUS July 2023
Supervised by Prof. Lek Hsiang Hui, Letter Grade: A

- Completed a team project in the area of Web Mining where we mined and analyzed web data to model the housing prices in Beijing.
- Specifically, I learnt many web scraping skills including CSS selectors, selenium, BeautifulSoup; predictive analytics (machine learning) techniques including regression and classification; and basics of recommender systems. I gained a whole experience of solving data science problem through a standard workflow from data collection, processing to modeling.

Undergraduate Research Project, Software Quality Lab Sept. 2023 -Present
Supervised by Prof. Yepang Liu

- I am currently engaged in research about the application of Large Language Models (LLMs) within software engineering domain. More specifically, my focus lies in exploring LLM-based approaches to automate JSON library testing, trying to solve the problems including data/program generation and test oracles.

SUSTech Course Projects

- I've open-sourced most of the course projects on github, including a dormitory selection backend system, a basic tensor library in C++, some experimental projects such as a knowledge graph-based recommender system and Information Exposure Maximization Problem, etc.

Awards

- First Class Outstanding Student Scholarship, 2022
- Second Class Outstanding Student Scholarship, 2023
- Merit Student, 2023
- Excellent Peer Mentor, 2023
- Successful Participant, Mathematical Contest in Modeling, 2023
- Third prize (Provincial Level), China Undergraduate Mathematical Contest in Modeling, 2023
